

Historical Landmark... Redesigned for the Future

The Fruitville Elementary school, located in Sarasota Florida, traces its roots to a 19th-century one-room schoolhouse. Home to one of the best special-needs programs of its kind in the county, the school needed a major make-over due to lack of space on campus.

Combining **decades of different historical styles** represented by the older on-site buildings with a **cohesive, contemporary brick pattern**, this project accommodated special-needs classrooms while keeping the students safe and on campus. Read more from [Masonry Magazine](#).

John J. Sabia Scholarship Fund

The John J. Sabia Sr. Scholarship Fund awarded \$5,000 scholarships for the upcoming school year to 11 deserving students who are part of our EBA family. We are grateful for our Members and industry friends whose generous participation make this annual tradition possible. THANK YOU!

Renovation of 30th Street Station

Get a detailed look at the investigation and restoration of our very own **30th Street Station** in Philadelphia. Topics include the investigation methodology, restoration approach, and challenges of performing a facade restoration in a fully functional train station. Presented by the International Masonry Institute.
